PUBLISHED WEEKLY ON FRIDAYS

PRICE ONE SHILLING AND SIXPENCE

INDEX TO VOLUME 176

1st January to 25th June 1965

NINETY-THIRD YEAR OF PUBLICATION

© Iliffe Electrical Publications Ltd. 1965. Permission in writing from the Editor must first be obtained before letterpress or illustrations are reproduced from this journal. Brief abstracts or comments are allowed provided acknowledgment to the journal is given.

Editorial, Advertising and Publishing Offices: Dorset House, Stamford Street, London, S.E.1. Telegrams/Telex: Review Iliffepres 25137 London. Code: ABC. Telephone No. Waterloo 3333 (70 lines). Cables: Elecrev, London, SE1. Registered at the General Post Office as a Newspaper. Entered as Second Class Matter at the New York, U.S.A., Post Office. Annual Subscription: Home £5 0s 0d; Overseas £6 5s 0d: U.S.A. and Canada $18.00. Remittances payable to "Electrical Review."

ABERDARE Holdings, Acquisition by, 336
Aberthaw power station, Gas turbo-generator sets for, 350
Abnormal transport loads, Report on, 345
Abu Dhabi (Trucial States) power station, 841
Accident statistics, CEGB, 723
Accidents: Unearthed switchgear, 839; Transmission towers collapse, 852, 874
Acheson, E. G., Autobiography of, 949
A.c. saturated reactors for power system stability, by E. Friedlander and D. J. Young, 88
Actuator production lines, New, 737
Ada (Halifax), Transfer of home laundry business of, 575
Aden: Telephone equipment for, 878; Diesel power station project, 960
Adjusta-Lite, Formation of, 763
A.E.G., Bid for cable company by, 840
Aerial, Large dish type, 43
Aerodynamics in power station boiler furnaces, by D. Anson, 820
Afghanistan: Diesel power house for, 576; Sarobi hydro-electric station, 662
Air conditioning: Heat pump, 60; Electricity Council's research programme on, 320, 685; Research intensified, 685
Air pre-heater, Glass tubing for, 83
Air vessels, Supergrid switchgear, 69
Aircraft: Concord project, 254, 652, 725, 760, 997; British equipment for American, 492; Support for HARCO control system, 492; Super VC10 wiring, 588; Cancellation of TSR2 project, 627
Aircraft hanger lighting installation, 402
Algeria, Diesel generating sets for, 418
Alpe Gera Dam, Construction of, 121
Alternators: Damage to Nimrod, 345, 542; Direct water-cooled hydro, 629
Aluminium alloy conduit, Range of, 350
Aluminium conductors, Electricity Board's use of, 664
Aluminium plate, High-current welding of, 679
Amplifiers, Solid circuit, 663
Analysers, Continuous water and gas, 910
Angular deflection meters, Digital convertor device for, 679
Appearance design, 734
Armchair, Electrically heated, 190, 252
Artificial respiration, Automatic, 697
ASEA, Loan for, 959
Associated Electrical Industries: Contracts received, 31, 35, 41, 109, 137, 139, 175, 177, 226, 236, 258, 295, 334, 340, 418, 471, 495, 501, 576, 724, 731, 878, 883, 917, 960, 1003; Cable Division's main stock depot, 150; Semiconductor manufacture expansion, 153; Dangerous chemicals warning by, 219; Vacuum contactor development, 236; Talks with Controls & Communications, 257; Construction Division appointments, 417; Expansion of telephone manufacture, 470; Transfer of cable making operations, 470; Inflatable plastic tent developed by, 507, 585; Chairman's annual statement, 545; Bootle factories integrated, 614; Chairman's criticism of new tax, 697; Polish delegation's visit, 724; Birmingham offices, 763; Heavy plant Product Groups, 799; Industrial heating campaign, 816; Supercooled transformer development by, 853; Possible disposal of marine communications business, 927
Association of Public Lighting Engineers: Conference programme, 841
Association of Supervising Electrical Engineers: Presidential address, 118; Annual dinner, 586; Premium awards, 610
Atlas Lighting, Brazilian visitors to, 203
Australia: Radioheliograph station, 7; Equipment for, 137, 177, 298, 310, 336, 890, 917; Plessey Co.'s acquisition in, 139; Hazelwood power station, 195, 801; Booklet on State Electricity Commission of Victoria, 216; Oil-fired power station project, 370; Chloride Group factory in, 420; Locomotives for, 532, 802, 878; Tasmanian hydro-electric project, 802
Austria: Vienna Trade Fair, 67; Power exchange with Hungary, 916

Authors—
Agu, L. A., and P. J. Lawrenson, Papers on reluctance machines, 85
Allan, D. J., and J. Heighes, Routine factory measurement of internal discharge, 902

Wright, J. W., 34, 182
Young, A. E., and G. A. B. Thompson, 34
Zucker, L. V., 882

Barrage proposals, 685
Batteries, New high power range of, 149
Battersea power station, Glass tubes for air pre-heater at, 83
Battery powered car, 739
Belgium: Electric utility applies for share quotation, 68
Belling, C. R.: Death of, 277; Will, 529
Belmos Peebles Switchgear, Commencement of manufacture by, 661
Birthday Honours List, 956
Black & Decker, Abandonment of r.p.m. by, 419
Blankets, Electric: A gloomy year for, 494; Morphy-Richards statement on, 574; Outlook for, 685
Blowers, Failures of nuclear power station gas, 623
Blyth "B" power station, Hydrogen producing plant at, 370
Boilers: Proposed new type power station, 39; Lighting for overhaul of, 151
Bordesley grid substation, 306, 309, 316, 369
Braby Group's Finnish agreement, 260
Brick-setting system, Automatic, 418
Bridges: Temporary, 188, 273; H.v. cable railway crossing, 233
Bristol: Long-term electricity distribution plan for, 148, 162; New control centre and bulk supply point, 284; Cumberland Basin lighting installation, 547
Bristol University, School of Chemistry building of, 5
British distribution system, Growth of the, by H. J. Sheppard, *in supplement to issue dated 4th June*
British Electric Cable Testing Organisation, First meeting of, 697
British Electric Transformer Co., Expansion of works of, 672
British Electrical and Allied Manufacturers' Association: Domestic appliance statistics, 30; Contract price adjustment formulæ, 68, 176, 371, 494, 687, 840, 1001; Director's call for increased exports, 119; Export finance proposals welcomed by, 187; Call for removal of import surcharge, 233; Conference on numerically controlled machines, 344, 346; Report on abnormal transport loads, 345; Hanover Fair exhibit, 351; Annual report, 381, 385; Annual luncheon and meeting, 505; Support for machine tool project, 505; New address of, 505; Elections, 528; Information Centres move, 652; Proposals for tropical tests on rotating machines, 888; Domestic Appliance Divisional Board's report, 957
British Electrical Approvals Board for Domestic Appliances, 698
British Electrical Conduit Manufacturers, Annual dinner of, 369
British Electrical Power Convention, 343, 347, 923, 926, 967, 968; Proceedings, 977
British European Airways, Relay centre of, 109
British Insulated Callender's Cables: Brochure by, 125; Orders received, 177, 259, 336, 420, 501, 724, 731, 883, 917; Offer for Telegraph Condenser Co., 548; Consortium formed with Plessey, 812
British Klockner Switchgear, Change of name of, 533
British Non-Ferrous Metals Research Association, Annual report of, 785
British Standard Specifications: P.v.c. cable, 119; Flameproof lighting fittings, 484; Cable sleeves, 484; Commutator bar tolerances, 484; Gas turbines, 574; Miniature circuit-breakers, 621
British Standards Institution: Code of Practice on Electrical Installations, 312; List of CSA approved equipment, 530; Committee on component approval, 586; Committee on building site distribution system, 587; Buyers' Guide, 761; Office machinery approvals scheme, 799
Brno Fair, 1000
Broadness, Salvage vessel, 453
Brook Motors, Films by, 495
Brown Boveri-Oerlikon, Study of merger possibilities by, 649
Brown, John, & Co., American G.E. agreement with, 969
Brunei, Circuit-breakers for, 297
Brush Electrical Engineering Co., New switchgear testing station of, 813
Budget, The, 544, 590, 696
Building sites, BSI committee on electricity on, 587
Bulgarian hydro-electric scheme, 31
Burgess & Co. (Engineers), Acquisition of, 70

CABLE boxes, Heater for melting compound in, 788
Cable car signal system, 388
Cable damage, Damages awarded for, 87
Cable joints, Heat-shrinkable plastic for, 788
Cable-laying plough, 856
Cable wiping gland and armour clamp, 365
Cables: Cook Strait, 5, 625, 734, 735, 852; Radioheliograph station installation, 7; Untinned conductors in p.v.c. insulated, 116, 119; First SEACOM section completed, 118; A.E.I. main stock depot for, 150; Harness for gas turbine engine, 153; Australian orders, 177; 132 kV contract, 190; River Tagus telephone, 196; Bridge for 275 kV, 233; SEACOM second stage, 236, 548; Indian factory for mineral insulated, 257; M.i.c.c. demonstrations, 259; Research on undergrounding, 330, 874; Expenditure figures on underground and overhead mains, 330; Butyl/Hypalon insulated, 348, 474; Aluminium sheathed telephone, 387; Glaslyn Estuary crossing, 436; Loch Awe Scheme, 508; Eastern Bermuda telephone, 663; Area Board's use of aluminium, 664; Advances in, 695; Testing organisation's first meeting, 697; Mass impregnation plant for high voltage type, 706; Baltic telephone, 721; Protection of power —— against corrosion, by D. McAllister, 744; Virgin Islands–Bermuda telephone, 802; Increasing manufacture of aluminium, 810; Enfield-Standard Scottish works, 810, 825; Contracts for 275 kV oil filled, 842 878; Pipe protection tape for 132 kV underground, 1003; Construction of overhead lines and underground, by K. A. Austin, *in supplement to issue dated 4th June*
Camera shutter speeds, Testing, 472
Canada: Auto-switching for transmission line, 29; Accounting equipment for, 109; Vancouver Island power link contracts, 149; Large hydro-electric plant contracts, 258; List of CSA approved equipment, 530; 735 kV transformers for, 878; Nuclear power station project, 960
Cannon, W. G., Air Engineering, Formation of, 917
Capacitor elements, Winding high-voltage, 273
Capital investment, Publication on, 335
Car washing system, Fully automatic, 220
Carbon brushes, Testing, by C. Bates, 354
Cardiff Arms Park floodlighting installation, 82
Carolina Port power station project, 3
Central Electricity Generating Board: University team to study methods of, 8; Contracts placed, 35, 226, 295, 340, 420, 471, 501, 505, 623, 731, 842, 883, 1003; New type of boiler proposed by, 39; Plant commissioned in 1964, 39, 122; Salmon hatchery, 47; Computer enlarged, 118; Profit forecast, 119; Bulk supply tariff, 189; Automatic electronic control for power stations and transmission system of, by E. B. Johnson, M. F. Binney and F. H. Last, 199; Hovercraft transporter, 309; Critical path network requirements on contracts, 519; Criticism of pricing policy of, 590; Preference to be given to coal, 622, 627; Pulverised fuel ash symposia, 651; Lead in nuclear generation, 660; Sketches commissioned to explain excavations, 705; Accident statistics, 723; London bulk supply reinforcement, 771; Linemen's training school, 774; Models exhibited overseas, 889; Turbo-generator design specifications, 924
Central Training Council committee on research, 109
Ceramic magnets, 607
Ceramic manufacturing plant, New, 687
CERN, Support for, 913
Ceylon: Substation equipment for, 108; Telephone equipment for, 295
"Challenge of Modern Engineering" conference, 468
Chandelier, Large, 234
Chilton Electric Products, Bid for, 383
Church lighting installation, 43
Circuit-breakers: Breakdown tests on, 120; Computer suggested for control of auto-reclosing, 154; Brunei order, 297; Methil power station, 311; Tests in stratosphere chamber, 348; Vacuum and SF_6 types, 454; Advantages of miniature, 468; Economic and technical aspects of miniature, by J. A. Robbins, 478; BSS for miniature by J. A. Robbins, 621, 640; Final tests on 400 kV types, 664; 2,000 A moulded case type, 852; Delle 735 kV air-blast, 859; SF_6 types for transmission and industrial applications, 862; Large Australian order, 878; New range of, 930
Circuit testers, Automatic, 369
Citrine Lecture, by Lord Hinton, 968, 981
City and Guilds courses, New, 958
Clean Air Act grants, Withdrawal from direct acting heaters of, 3
Clutches, Applications of electromagnetic, by H. Sains, 18
Coal: Improved preparation plant, 155; Government help for the industry, 622, 627; Transport by canal, 895; The future of, by Lord Robens, 984
Coal trains, "Merry-go-round": Loading equipment dispute, 705; Electronic speed control for, 927
Cockenzie power station: Generator connections for, 29; Coal plans for, 188; Generator transformers for, 471; Heating of precipitator hoppers, 910
Coil winding machine, 83
Coils, Special spherical, 891
College extension, Built-in distribution system in, 5
Collier, New, 614
Colliery winders, 234, 371
Colour temperature meter, 910
Committee on Manpower Resources: Reconstituted, 254; Survey for, 257, 722
Common services duct idea, Rejection of, 527
Communication satellites: Progress on global, 254, 796; Studies on, 373; Early Bird, 432
Company accounts, A case for more information on, 460
Competitions: G.E.C. central heating, 335; International Apprentice, 532; Public speaking, 612, 801
Component approval, Committee on, 586
Compound melting, Heater for, 788
Computers: U.S. 6,000 MW system controlled by, 4; G.P.O. Datel services for data transmission, 10; Unit for schools, 68; Composition of music by, 87; Use by steel company, 116; Enlargement of CEGB's, 118; Government orders for, 137, 373; E.E. training centre, 139; Electricity Board's plans, 139, 176; Suggested use to control auto-reclosing circuit-breakers, 154; Elliott workshop, 178; George Kent to use, 188; Munich traffic control scheme, 189; Retirement of Leo I, 216; Low-cost British, 269; Government plan to boost industry, 345, 997; Arch 101: 360; Desk-sized research model, 371; Investigation

into —— for power system behaviour evaluation, 382; A phased approach to the use of process, by J. M. Westhead, 395; Company to provide services in South America, 420; Parliamentary questions on Government plans, 421; Air Ministry order, 459; Use in newspaper production, 507; NPL long-term research, 545; Telegraph message system controlled by, 649; Premium Bond records by, 687; New E.E. company formed, 721; Rubber industry application study, 778; New service company formed, 802; Elliott-Automation company, 839; Equipment loaned to college, 841; Shell refinery contract, 842; Company formed to sell used, 877; G.E.C.'s world-wide agreement, 914
Concord project: Flight control system contract for, 254; Kinetic heating trials, 652; Equipment for, 725, 760; Transponders, 997
Condenser paradox, Fallacy of the, by J. B. Matley, 46
Condenser tube corrosion, Prevention by ferrous sulphate of, 388
Conduit, Aluminium alloy, 350
Confederation of British Industry, 255, 257
Construction Industry Training Board, 574
Construction safety regulations, Inquiry on, 876
Consumer law, Regrets at delay in, 295
Consumer protection, House of Lords debate on, 513, 527
Contactor, Long-life vacuum type, 236
Contract price adjustment formulæ, 68, 176, 371, 494, 687, 840, 1001
Contracting, Profitable, by "Conseil," 241
Control gear industry, Current trends in the, by J. J. Hayes, 210
Control panel survey, 551–566
Control panels for large power stations, by S. E. Hopkins, 555
Controls & Communications merger rumours, 257
Converter equipments, Developments in large, by K. D. Phillips, *in supplement to issue dated 22nd January*
Cook Strait cable: Fault in, 5, 625; Inauguration of, 734, 735; Details of, 852
Cookers: Sales, 107; Solid state controls for, 119; Combined gas/electric, 346, 433, 477; Future trends, 839
Cooling towers: Dry type, 583, 878; Nigerian order for, 614; NPL research on, 812
Copper wire production techniques, Improvements in, 785
Corporation tax, Criticism of, 697
Corrosion, Protection of power cables against, by D. McAllister, 744
Cottam power station, Plant for, 238, 296
Council for Scientific Policy, Members of, 118
Courts, In the, 81, 87, 125, 531, 781, 839, 840
Cowlyd Dam, Completion of reinforcement of, 858
Craftsmen, Importance of, 650
Cranes: Flexible communications system for, 45; Large prototype for substation use, 625
Critical path analysis, IEE colloquium on, 519
Crompton Parkinson, Leicester branch of, 960
Cross-arm shrouds, Protective, 81
Cruachan pumped storage scheme: Turbine hall of, 42; Boards' co-operation, 849; Progress at, 864
Current transformers, Design of small, by J. C. Clark, 126
Cutter, Transistorised oxygen, 131
Czechoslovakia: Brno Fair, 1000

DAM construction, Slag and ash used in, 221
Dangerous chemicals, Warning of, 219
Data loggers, Ships', 432
Data processing system installation, 42
D.c. installations, Output control of, by C. B. Henman, *in supplement to issue dated 22nd January*
Decca Radar, Sales of divisions by, 457
Degree courses, Industry's responsibility for, 436
Denmark: Turbine for district heating scheme in, 40; Pumps for, 108; Copenhagen underground railway project, 371; Baltic telephone cable contract, 721; Railway equipment for, 842; Floodlighting installation, 958
Department of Scientific and Industrial Research: Details of research contracts placed by, 421; Booklet on machine design, 532; Formal dissolution of, 575
Desalination: Progress in —— of sea water, 457; Research on, 725, 913; Designs for nuclear plant for, 971
Design Centre: Extended scope of, 612; "Living in One Room" exhibition, 722; Awards, 761
Design: Ministry booklet on good, 527; Rational approaches to improving methods, 893; —— Engineering and Management conference, 893
Development contracts, Government, 373
Development of Inventions Bill, 236
Diamond H Controls, Custom-built switches by, 384
Didcot power station: Feed pumps for, 370; Boiler order for, 505; Pipework contract, 1003
Diesel engine test plant, Automatic, 64
Digital Measurements, Merger of Systems Division of, 616
Diplomas in technology, New designation for, 232
Diplomatic Service, Commercial representation responsibilities of, 67
Direct current transmission, High voltage: Cook Strait project, 5, 625, 734, 735; Wider application of, 734, 974; Contract for U.S. scheme, 762; Switchgear for, 824; U.S. research project, 959; In Britain, 974
Direct energy conversion techniques, Prospects for the major, by R. A. Coombe, 549
Discharge measurement, Suggested use in tests of, 130
Distribution equipment in the next decade, by E. H. Cox, *in supplement to issue dated 4th June*
Distribution networks, Substation equipment for, by W. Plumb, *in supplement to issue dated 4th June*
Distribution systems: College extension built-in, 5; Growth of the British, by H. J. Sheppard, *in supplement to issue dated 4th June*
District heating: Danish scheme, 40; Scope for, 924; A case for, by R. M. E. Diamant, 937; Aldershot power and —— station, 1001
Domestic consumers, Sample survey of, 171
Domestic Electrical Appliance Exhibition, 68
Domestic electrical appliances: Statistics on, 30; Area Boards' sales, 221, 458, 575, 650, 840; Standard of reliability expected from, 267; Specialist design service for, 371; Prestige range planned, 384; Italian market for, by J. S. Rooke, 475; Warning on misuse of, 527; BEAMA Divisional Board's report, 957
Domestic electrical equipment supplements: Kitchen appliances, *in issue dated 15th January*; Home laundry appliances, *in issue dated 19th February*; Vacuum cleaners, floor polishers, thermostats, time switches, *in issue dated 19th March*; Water heaters, *in issue dated 21st May*
Domestic Heating Society, Formation of, 297
Doulton & Co., Sesquicentenary of, 959
Dounreay fast reactor, Semiconductor regulator at, 453
Dowding & Mills, Acquisition by, 1003
Drax power station project, 505, 900; Wall chart of, *facing* p. 940
Drilling machines, Tape-controlled, 434, 489
Drives, IEE conference on large industrial, 709, 740
Dry cooling towers, 583, 878
Dungeness "A" nuclear power station, Fuel loading at, 974
Dungeness "B" nuclear power station: Tenders for, 257, 624, 796; Choice of AGR for, 469, 810, 811, 851
Dynamco, Formation of, 616

EARLEY power station, Gas turbo-alternator sets for, 152
Early Bird communications satellite, 432
Earth resistance measurement errors, Reducing, by Dr J. F. Tagg, 194
Earthing: Double-insulated appliances and protective multiple, 474; IEE Colloquium on loop impedance testing, 511; No Government direction to Area Boards on, 590
Eastern Electricity Board: Tariff changes, 80; Plant irradiation experiments, 107; Rural electrification position, 433; Heating centres, 507; Maximum resale price, 532; Ducted air display, 721; Two millionth consumer, 722; Expansion plans, 799; Public speaking competition successes, 801
Economic Affairs, Minister of State for, 150
Economic Development Committees, 4, 38, 40, 175, 913, 915; First year of the electrical engineering, 975
Education, EPEA report on changes in, 774
Edwards, Prof. Sir Ronald, Portrait of, *facing* p. 924
Eggborough power station: Boiler insulation for, 532; Local effects of work on, 627; Steam drum for, 891
Eggborough supergrid switching station: Air vessels for, 69; Progress on, 735
Egypt: Cairo South power station extension, 121
E.h.v. test centre, 671
Electric Cable Makers' Federation, Change of title of, 585
Electric Light Fittings Association: Annual report of, 574; Annual luncheon, 585, 609; Hanover Fair application, 585
Electric power transmission, Russian developments in, by Prof. V. A. Venikov, 158
Electric typewriters, Test report on, 658, 686
Electric Vehicle Association, Annual report of, 856
Electric vehicles: American projects, 312; Lecture on energy storage for, by K. E. V. Willis, 388; "Rickshaw" proposal, 856
"Electricaire" heating system, 507
Electrical Apparatus Co., New instrument works of, 389
Electrical Association for Women, 40th anniversary conference of, 699
Electrical contracting industry: Fewer labour disputes in, 231; Profitable contracting, by "Conseil," 241; New apprenticeship agreement, 774; Productivity incentives negotiations, 877; Training levy and grants, 959
Electrical contractor, Responsibilities of the, by "Conseil," 600
Electrical Contractors' Association: Annual dinner 231, 293; Annual conference, 347, 779, 809; Liverpool Branch annual dinner, 419; Selective tendering campaign, 624; Annual report, 739; Clarification of contract terms, 957
Electrical Contractors' Association of Scotland, Hire purchase project of, 221
Electrical Development Association: Domestic Application Exhibition, 68, 244, 329; Conference papers, 271, 353; Change of address, 334; 1966 conference venue, 369; Publicity campaign, 382, 383, 459, 531, 778; Public speaking competition, 612, 801; Committee's agricultural college visit, 651; Annual report, 778; Annual general meeting and luncheon, 797; New advertising agent for, 885, 917; Production costs liaison group, 971
Electrical engineer, Management education and the, by G. S. Bosworth, 313
Electrical engineering companies, Report on world's largest, 839
Electrical Engineers Exhibition dinner, 1001
Electrical Industries Benevolent Association, Annual report of, 631
Electrical Industries Club, 136, 294, 647
Electrical industry: Increasing manpower requirements of, 711; Change and concentration in, 733; Report on European, 733, 742
Electrical installations, Code of Practice on, 312
Electrical machines, Influences on the design of, 408
Electrical manufacturing industry: Performance of, 1; 1964 production and prices of materials for, 103; Is the —— neglecting Europe?, by D. G. Crole-Rees, 165
Electrical Power Engineers' Association, Changes in education studied by, 774
Electrical Remote Control Co., Factory extension of, 874

Electrical Research Association: Shinfield field station transferred to university, 79; Laboratories lighting installation, 403; Annual report, 659; Annual luncheon, 699
Electrical retailing course, 723
Electrical trade, United Kingdom, 222, 770
Electrical Trade Commercial Travellers' Association, 333
Electrical Trades Union: New name proposed for, 149; Bonus claims by, 176; Gas Board agreement, 232; Structure revision, 801; Annual conference, 877
Electrical Wholesalers' Federation: Promotional booklet by, 458; Annual dinner, 510; Domestic appliance catalogue plan, 510; U.S.A. study tour, 800, 876; Visit from European companies, 840
Electrical wholesalers' training scheme, 612
Electricity Boards: Figures of contracting workers of, 10; Electricity sales, 32, 171, 334, 419, 531, 686, 1001; Cooker sales, 107; Domestic appliance sales, 221, 458, 575, 650, 840; National fault reporting scheme, 430, 431; Fixing of maximum resale prices by, 470, 513, 532, 725; Rating of, 527; Plans to restore manufacturing rights to, 590; Annual reports, 925; Connection charges dispute with gas industry, 927
Electricity Consultative Councils: Function of, 886; Opposition to tariff increases, 887
Electricity costs: Average household, 545; Reference to Prices and Incomes Board suggested, 913
Electricity Council: Domestic consumer survey, 171; Research laboratory for, 188, 837; Possible seasonal tariff experiments, 232; Air conditioning load research programme, 320, 685; Fault analysis scheme, 430, 431; Demand recorders for, 530
Electricity demand recorders, Order for, 530
Electricity in industry survey, 391–410
Electricity in medicine, Scope of, by Dr D. G. Melrose, 470
Electricity in 1974, Predictions on, 80
Electricity, Increasing competitiveness of, 271
Electricity Industry Survey, OECD, 958
Electricity prices: Ten years' increase in, 292; Government policy on, 615
Electricity, Resale prices for, 292, 470, 513, 532, 725
Electricity sales: November, 1964, 32; December, 1964, 171; January, 334; February, 531; March, 686; April, 1001; 1964 figures, 171, 419
Electricity supply industry: Interview with C. T. Melling, 12; Salaries, 47, 117, 926, 976; County planners told of plans, 61; "Status" plan second stage, 116, 117; Voltage fluctuations becoming more serious, 269; Criticism of, 271; Publicity expenditure by gas industry and, 330, 874; National fault reporting scheme, 430, 431; Training Board, 469, 503, 970; Finance, 492, 544; Exchequer share of investment in, 527; Higher wayleave payments, 530; Plans to restore manufacturing rights to, 590; Research expenditure, 590; American booklet on styling of structures for, 598; Changing staff needs of, 612; Prices policy, 615; Office workers' overtime ban, 660, 874; Power station foremen's pay complaint, 664; NALGO strike ballot, 736; Growth of sales, 819; Meetings with county councils, 858; End of a private supplier, 858; Fresh approach to publicity?, 885; Three-tier grid control system, 889; Growth of the British distribution system, by H. J. Sheppard, *in supplement to issue dated 4th June*
Electricity's future in the home, by E. G. Plucknett, 987
Electrocution, Grant for research on treatment for, 389
Electrolux, Record exports by, 840
Electrolytic loads, Supplying, by S. A. Stevens, *in supplement to issue dated 22nd January*
Electromagnetic clutch applications, by H. Sains, 18
Electronic design service, 531
Electronic Machine Co., Acquisition by, 616
Electronic or pneumatic control in power stations? by Ll. Young, 554
Electronics: Disagreement about Economic Development Committee, 4; Newspaper company enters industry, 176; Conference on —— design, 268; Industry's 1964 output, 431; Changing Japanese market, 650; Need for design engineering in, 773
Electropainting plant, Vehicle fuel tank, 489
Electroplating process for plastics, 31
Electrostatic generator, Lecture on, by Prof N. J. Felici, 190
Electrostatic precipitators, Improving the efficiency of, 323
Elliott-Automation: Computer workshop of, 178; 1964 results, 812; Computer company formed, 839
El Salvador, Microwave relay system for, 336
E.M.I. Electronics investment programme, 370
Employers' associations, Discipline among, 231
Energy Advisory Council, 148, 151, 231
Energy convertors, Thermomagnetic, by H. J. Goldsmid, 514
Enfield-Standard Power Cables, Cambuslang factory of, 810, 825
Engineering, Conference on the challenge of modern, 468
Engineering Industries Association, Activities of, 41
Engineering Industries Joint Council, 851
Engineering Industry Training Board, 67, 296, 506, 574, 811, 875
Engineering in Europe, 54, 454, 824
Engineering in Russia, 322, 680
Engineering status study, 613
Engineers: Broadening the outlook of, 233; Need for agreement on title for, 468
Engineers' Guild, Professional engineering survey project of, 115
English Electric Co.: Contracts received, 35, 178, 226, 236, 336, 346, 471, 495, 532, 576, 652, 731, 802, 842, 883; Aircraft interests integrated, 69; Talks with Ruston & Hornsby, 122, 544; Computer training centre move, 139; Freezer demonstration, 139; 1964 results, 307; Domestic appliance merger talks abandoned, 333; Scholarships, 334; Bid for W. H. Sanders (Electronics), 347; Chairman's annual statement, 347; New appliance service depot, 533; New range of process instrumentation, 586; New computer company formed, 721; Actuator production capacity increased, 737; Motor prices reduced, 875; Eastern hemisphere export drive, 888; 2,000th diesel engine for British Rail, 957
Environment simulators: Order for, 41; Pressure chamber, 738
Epoxy materials, Repairing substation structures with, 414
Epoxy resins, Easier handling pack for, 419
Equipment Comparison: Formation of, 221; First report by, 658, 686
Esso Petroleum, Transatlantic communications system of, 799
Euratom: Tentative nuclear power programme, 469; Annual report, 927
Europa Hotel banqueting hall lighting, 575
Europe: Energy statistics for, 613; Report on electrical industries in, 742; Electricity supply investment in, 958
European Communities, Merger of executives of, 649
European Launcher Development Organisation: Conference, 254; Progress report, 492
Evershed & Vignoles, Bid for, 333
Excitation systems, Evaluating new, by R. Nair, 92
Exhibitions: British Industrial, Moscow, 761; Brno Fair, 1000; EDA Appliance, 68, 244, 329; Hanover Fair, 351, 585, 702, 829; Hardware Trade Fair, 259; Ideal Home, 346; International Engineering and Welding, 594; Interplas, 892, 996; Leipzig Trade Fair, 137, 457; Lighting, 107, 138, 219, 236, 297, 333, 446, 510; "Living in One Room," 722; London International Engineering, 665; Moscow instrument, 298; Physics, 591; "Pocket" substations, 295; Radio and Electronic Component Show, 69, 817, 850; South Western Electricity Board, 772, 788; Southern Hotel and Catering Trades, 260; Tokyo British, 799; U.S. industrial design, 959; Vienna Trade Fair, 67
Export Credits Guarantee Department: Cover improved by, 611; Premiums reduced by, 914
Export managers, Status of, 67, 850
Export orders, Large, 236, 336
Export Research Group, Formation of, 107
Exporters, Criticism of British, 685
Exporting for profit, 650
Exports: Electrical manufacturing industry and, 1; Electrical, 40, 151, 418, 505, 698, 770, 853, 917; Call for increased, 119; Is the electrical industry neglecting Europe? by D. G. Crole-Rees, 165; The docks and, 166; Government measures to encourage, 185, 187, 874; Storage heaters, 219; Awards committee, 254; Advisory committee to help sales in U.S.A., 418; Help for small firms on, 493; Group to study promotion of reactor, 530; Morganite Resistors, 576; Finance Bill and, 696; Electrolux record, 840; Companies assist each other on, 875; Eastern hemisphere, 888; Fork-lift trucks, 915

FACTORY noise survey, 509
Fada Fionn hydro-electric project, 492
Fairchild, S. G. S., New factories for, 878
Fans: New manufacturing company, 219; Dynamic balancing of impellors, 274; Applications of tangential type, 651
Farm lighting, Leaflet on, 70
Fawley power station: Chimney foundations for, 508; Boiler drums for, 649; Night view of site, 814
Federation of British Industries: Labour survey, 137; Export survey, 166; Industrial trends survey, 295, 958
Ferguson, J. R. (Electrical Engineers), New factory of, 878
Ferranti: Repayments on missile contract, 10, 698, 997; Contracts received, 226, 471, 731; Report on missile contract inquiry, 292; Visit of Minister of Technology to, 334; Research on superconducting transformers, 813; Transformer works extension, 926, 931
Ferrites in electrical rotating machines, 607
Ferroresonance—problems and applications, by J. F. Young, 782
Ferrous sulphate, Tube corrosion prevented by, 388
Ferrybridge "C" power station: Steam chests for, 152; Pump motors for, 854
Films, Industrial, 495, 648, 917
Firelighters, Fire Protection Association's views on electric, 631, 743
Fires: 1963 statistics, 220; Publication on industrial, 335
Firing range targets, Operating motors for, 107
Flameproof fluorescent lighting, Development of economical, 945
Flashovers between ice-loaded conductors, by V. T. Morgan and D. A. Swift, 85
Floating dock, Submarine fleet, 472
Floating island project, Communications, 624
Floodlighting installations: Maidstone library, 6; Edinburgh, 41; Rugby football ground, 82; Palatine Gate, Turin, 348; Osram headquarters building, 372; Housing development scheme, 387; Golf course, 415; Hong Kong bank, 738; Churchill House, Cardiff, 776; Athletics stadium, 891; Danish department store, 958
Floor warming: Stock rearing, 139; West Bromwich flats, 458; Manchester Corporation installations, 841
Fluorescent fittings, Price reductions in, 686
Fluorescent lighting, Development of economical flameproof, 945
Fluorescent tubes: Exhaust machines for, 777; New 65/80 W lamp, 892
Fork-lift trucks: Exports of, 915; Pilkington Bros. use of, 917
Forth Road Bridge, 311
Fox, Samuel, & Co., Electrical control centre at works of, 235, 386
France: Tubing for nuclear power station, 106; Electricity supply annual report, 296; New form of illuminated road crossing, 347; Switchgear developments in, 859
Freezer, Demonstration of effectiveness of, 139
Frost, H., & Co., Acquisition of, 232

Fuel and power resources, Symposium in world's, 78
Fuel ash, CEGB symposia on, 651
Fuel cells: Caution on applications of, 312; Growing interest in, 330; Research grant may help, 699
Fuel costs: Need for records of, 177; Public buildings, 492
Fuel industries: Publicity expenditure by, 330, 874; Self-financing of, 761
Fuel policy: Possible U.K., 107, 148; PEP booklet on, 1000
Fuel tanks, Plant for electropainting inside, 489
Fuel transport to CEGB power stations, by J. Laing, 933
Fuller Electric, New tap changer factory of, 970
Furnaces: Heavy duty busbars for, 17; Thailand order, 177; Large melting, 189, 700; Control console, 235; Batch type for tube works, 372; Annealing, 724

GAS Bill, 292
Gas detector, Automatic, 8
Gas: Industry's publicity expenditure, 330, 874; Mimic diagram of distribution system, 509; Cost advantages questioned, 736; Connection charges dispute with electricity industry, 927; The future of, by Sir Henry Jones, 986; Increased borrowing powers, 1001
Gas turbines: Wiring harness for, 153; BS outline specification for, 574; American G.E.-John Brown agreement on, 969
Gas turbo-generators: Controlling —— for power station standby, 253; Large order for, 346; Thorpe power station, 349; Aberthaw power station, 351; Nigerian power station set, 386
Gasholder water seals, Prevention of freezing of, 252
General Electric Co.: Contracts received, 31, 35, 108, 336, 340, 371, 495, 501, 687, 688, 723, 724, 731, 802, 878, 883; Disposal of duct air heater interests, 70; Consideration of nuclear power position, 79; New companies formed, 270, 625; Agreement with A.C.E.C., 335; Central heating competition, 335; Purchase of Ministry's electronic laboratory, 369; Osram headquarters floodlighting, 372; Hunterston cost dispute, 469; New switchgear plant, 585; Research reactor made critical, 650; Osram price reductions, 736; Merger of turbo-generator interests, 771, 773; Withdrawal of American interest in process control company, 778, 914; Telecommunications company forms international division, 802; Worldwide computer agreement, 914
General Electric Company of America, Agreements with British companies, by, 969
General Steel Wares, British factory for, 384
Generating plant: 1964 commissioning figures, 39, 122; Diesel sets for Algeria, 418; Qatar order, 532; Small portable set, 543; Land Rover, 587; Air-cooled diesel driven, 649
Generation of electricity: Local, 77; New storage method for peak, 660
Generator, Waterwheel, 588
Germany, East: New power stations, 651
Germany, Western: A.E.G. High-Voltage Institute, 120; Munich traffic control scheme, 189; Hanover Fair, 351, 585, 702; Glems pumped storage scheme, 370; A.E.G. bid for cable company, 840
Ghana: Volta Dam completed, 369
Glasgow traffic signal experiment, 877
Glaslyn Estuary submarine cable crossing, 436
Glover & Main, Bid for, 493
Glyndebourne, New stage lighting installation at, 928
Goblin Electric Appliances, Formation of, 960
Golf course floodlighting, 415
Goonhilly microwave link, 471, 651
Government contracts, Parliamentary question on payments for, 330
Graham Clark Lecture, by J. C. Duckworth, 506
Grain storage, Demonstration of refrigerated, 70
Graphite furnaces, Heavy duty busbars for, 17
Grid control system, Three-tier, 889
Grid substation techniques, New, by L. B. Wood and J. P. Thompson, 316
Growth and profitability, Report on managerial attitudes to, 430
Guarantees, Improved, 763

HAGGLUND Industrial, Formation of, 297
Handlamp, New railway type, 506
Hanover Fair, 351, 585, 702; Lighting presentation at, by A. Wilcock, 829
Hardware Trade Fair, 259
Harlow hospital, Call system in, 723
Hawker Siddeley Group: Division renamed, 457; Expansion of transformer manufacturing facilities, 752
Heat exchanger tubes: Testing of, 235; French order for, 259
Heat pumps: Air conditioning, 60; Swimming pool, 122
Heaters, Space: Clean air grant withdrawn from, 3; Offers to elderly people, 11, 172; Exports of storage type, 219; Thermal storage type used in vehicles, 353; Discussion on control of storage type, 389; Heatstore users survey, 651; Simplex "Electricaire" agreement, 721; Ducted air display, 721
Heating: Single-phase loads, 54; Electric thermal storage warm air, by H. E. Smith, 271; "Electricaire" system, 507; Ducted air storage type installation, 613; High temperature infra-red process, 910; A case for district, by R. M. E. Diamant, 937
Heating element, Conducting silicone rubber, 889
Helicopters, Use in erection work of, 546, 800
Hewlett-Packard, Scottish factory for, 70, 802
Higgs Motors, Production reorganisation by, 137
High power switching and rectification, by J. H. Holliday and A. J. Booth, 896, 999
High temperature measurement and control, Optical pyrometer for, 366
High voltage d.c. transmission, *see* Direct current transmission
High voltage discharges, Initiation by laser of, 853
Hinkley Point nuclear power station: Commissioning of, 307; Standby diesel-alternator sets at, 349; Failure of gas blowers at, 623
Hinton, Lord, Transport appointment for, 231
Hire purchase deposit, Increase in, 887
Honeywell-SAAB co-operation, 259
Hong Kong floodlighting installation, 738
Hoover: Entry of refrigerator market by, 350; Scottish factory expansion, 611
Hospital, Call system in new, 723
"Hot line" maintenance: Need for British made tools for, 696; New techniques for, 698
Hovercraft transporter, CEGB plans for, 309
Hudson Light, Collier, 614
Humphreys, O. W., Portrait of, *facing p.* 268
Hungary: 400 kV interconnection with Russia, 651; Power exchange with Austria, 916
Hunter Memorial Lecture, by P. Bowles, 96
Hunterston nuclear power station, Dispute over cost of, 469
Hydro-electric generator, Complete water-cooling of, 629
Hydro-electric projects: Scottish, 10, 42, 492, 849, 864, 874; Spanish, 177, 203, 801; Canadian, 258; Sierra Leone, 258; World's largest, 801
Hydrogen producing plant, Power station, 370

IDEAL Home Exhibition, 346
Illuminating Engineering Society: Paper on revision of Code, by Prof. R. G. Hopkinson, 80; "Lighting for Sport" report, 613; Malvern meeting, 841
Imperial Chemical Industries: Large rectifier plant for, 334; Computer-controlled message system for, 649; Heating business entered by, 889
Imperial College of Science and Technology, Grant to, 664
Import surcharge: Call for removal of, 233; Cut in, 373
Imports, Electrical, 40, 172, 418, 505, 698, 770, 853; Survey into, 611
India: Sharavathi hydro-electric scheme, 29; Coal-handling plant for, 31; Permali factory in, 175; Mineral insulated cable factory, 257; Japanese plant for, 458
Induction instruments and motors, New theory for, by Prof. H. E. M. Barlow, 660
Induction motors in control systems, Analysis of the dynamic performance of, by Prof. J. C. West, Dr B. V. Jayawant and G. Williams, 61
Industrial design exhibition, 959
Industrial drives, IEE conference on large, 709, 740
Industrial market research, Techniques of, by F. H. P. Buckner, 924, 941
Industrial plant supplements: Power rectifiers and invertors, *issue dated 22nd January*; Control panels, *issue dated 9th April*; Distribution system techniques, *issue dated 4th June*
Industrial problem, Stating the, 344
Industrial research, Suggestion of doctorates in, 543
Industrial training boards: Electricity supply industry, 469, 503, 970; Criticism of membership of, 506
Industrialised building, Discussion on engineering services for, 269
Information retrieval: Meeting on, 176; System of, 186
Infra-red heating process, High temperature, 910
Institute of Aviation Medicine, Environment simulator for, 41
Institution of Electrical Engineers: South Midland Centre annual dinner, 233; Conference on electronics design, 268; Portrait of president, *facing p.* 268; Discussion on universities, 308; Electrostatic precipitator colloquium, 323; Annual dinner, 351; Control and Automation Division, 383; Power Division annual lecture, 470; Radio interference committee disbanded, 506; Colloquium on earth loop impedance testing, 511; Colloquium on critical path analysis, 519; Wiring Regulations, 542; Industrial drives conference, 709, 740; Criticism of status distinction, 772; Annual report, 816; Higher academic entry standards explained, 816; Appleton Lecture to be inaugurated, 838; Summer Meeting, 925
Institution of Electrical and Electronics Technician Engineers, 122, 433
Institution services, Proposal to combine, 930
Instrument contract, Large export, 139
Insulating tape, New, 187
Insulation and continuity testers, New, 570
Insulation, Determining the intrinsic electric strength of, by R. Cooper, 278
Insulators: Flash-over indicator, 240; High voltage transients and, 454; Flashover voltages of e.h.v., 680
Internal discharge, Routine factory measurement of, by D. J. Allan and J. Heighes, 902
International Domestic Lighting Exhibition, 107, 219, 236, 333
International Electrotechnical Commission, 725
International Engineering and Welding Exhibition, 594
International Rectifier Co., Factory extension of, 624
International Systems Control, Withdrawal of American interest in, 778
Interplas Exhibition, 892, 996
Investment, A broader view of, 923
Investment appraisal, Problems of, 542
Investment criteria, 230
Investment returns, Booklet on, 221
Ion-exchange resins for purifying water, 60
Iraq, Telephone equipment for, 802
Ireland, Republic of: Possibility of electricity co-operation with Ulster, 431; Dublin power station project, 916
Ironbridge "B" power station project, 858
Isotopes, Electric power from, 507
Italy: Alpe Gera Dam, 121; Sardinia d.c. power link, 272; Turin floodlighting installation, 348; Market for domestic

electrical appliances in, by J. S. Rooke, 475; British equipment for tube mill, 674
ITT Industries, " Package deals " by, 150

JAPAN: Loan for hydro-electric project, 138; Tokai Mura nuclear power station, 202; Changing electronics market in, 650; Standards for exporters, 737; British Exhibition in, 799; Possible merger of manufacturers, 892
Johnson & Phillips: Ulster Prime Minister's visit to, 839; New management structure, 998
Joint Committee on Materials and Their Testing, Renaming of, 761

KARIBA Dam, Equipment for, 370
Kent, George: Computer for, 188; Bid for Evershed & Vignoles by, 333
Kenwood Group: Factory extension of, 109; Domestic dishwasher by, 459
Kincardine power station, Condenser tube corrosion prevented at, 388
Kingsnorth power station: P.a.m. motors for, 309; Superstructure contract, 458; Control equipment for, 532; Battery equipment contract, 842
Kitchen appliances, Survey of, *supplement to issue dated 15th January*
Kuwait, Power station control equipment for, 724

LABORATORIES: Electricity Council, 188; Purchase of Ministry's electronic, 369; Lighting at ERA, 403; Plans for British Rail electrical, 587; Mullard Space Research, 613
Labour shortage, Problem of, 137
Lampmaking machines, Fluorescent tube, 777
Lamps: Marking of imported projector, 371; Utilising heat from fluorescent, 571; 65/80 W fluorescent, 892; Revision of marking urged, 1000
Lancashire Dynamo Electronic Products, " Stardrive " production line of, 235
Land Rover generator, 587
Laser: Machine tool bed aligned by, 510; Television programmes carried by, 607; H.v. discharge ignition by, 853
Laurence, Scott & Electromotors, New fabrication shop of, 108
Lebanon, Building Centre in, 876
Leipzig Trade Fair, 137, 457

Letters to the Editor—
Application of critical path analysis, by J. M. Blake, 124
Current-balance E.L.C.B.'s, by B. Levison, 714; by E. J. Sutton, 791; by G. F. Redgrave, 857; by L. C. Eales, 894
Current usage, by G. J. Maughfling, 275
Domestic load, by S. O. Shircore, 390
Dry cooling towers, by J. A. Henley, 758; by B. Wood, 758
Effects of low voltage and frequency, by R. Garrett, 86; by L. T. Mudd, 86; by B. Jubb, 124, 276; by N. E. Whittle, 156; by W. Hill, 156; by H. Taylor, 237; by J. Griffin, 238
Electrical bias, by C. W. Sheldon, 602
Electrical exports to Europe, by C. G. E. Parrott, 237
Engineers, Registration of, by J. G. Orr, 9
Gas and electricity prices, by J. Harley, 123
Induction motor standards, by B. Jubb, 46, 275
International standards, by A. Chatting, 602
Lighting points connected to ring circuits, by C. A. Belcher, 352; by E. J. Sutton, 352
Loop testers, Cost of, by J. S. Lasenby, 791
Meter positions, by C. W. Sheldon, 237
Meters, Outdoor, by J. W. Witham, 390
Nationalised industries, Manufacture by, by A. L. J. Sayers, 602
Paying for amenity, by J. Neocosmos, 758
Plugs, Overheated 13A, by " Your Correspondent ", 9
Power factor correction, by S. H. Birch, 9; by N. E. Whittle, 86
Professionalism in designing and selling, by F. J. Brewer, 9
" Restrictive " tariffs, by D. J. Bolton, 275
Sanders, Wm., and Chilton Electric, by J. N. Fuller-Shapcott, 476; by T. G. F. Atherton, 512
Service connections and meters, by H. G. Palfreman, 123
Tariffs, Seasonal, by G. C. Smith, 448; by D. J. Bolton, 476
Transformer gas analysis, by W. F. Widdowson, 857
Washing machine test, by P. Goldman, 86
Wiring in industrialised buildings, by C. C. Hyams, 390; by T. H. Hulme, 448; by E. H. Ring, 476

Lighting: False economy in switching off, 31; Church installation, 43; Tobacco factory installation, 69; Leaflet on farm, 70; Paper on revision of IES Code, by Prof. R. G. Hopkinson, 80; Exhibitions, 107, 138, 219, 236, 297, 333, 446, 510; —— for boiler overhaul, 151; Newport bridge installation, 175; Stage —— developments, by F. Bentham, 204; Sausage factory installation, 371; Flameproof fluorescent fittings, 387; Banking hall installation, 387; Housing development scheme, 387; Examples of good practice, 402; New B.S. for flameproof fittings, 484; Airfield contracts, 495; Division 2 fittings, 533; Assembly hall installation, 546; Bristol Cumberland Basin installation, 547; Europa Hotel banqueting hall, 575; Holloway Road street, 611; "—— for Sport " report, 613; Port Glasgow road, 626; Vehicle showroom installation, 698; Printing works, 777; A lesson in —— presentation—reflections on the Hanover Fair, by A. Wilcock, 829; —— for pleasure, 841; Air terminal reservation area, 877; New industrial standard, 916; Glyndebourne installation, 928; Development of economical flameproof fluorescent, 945; Mercury-iodide street, 970
Lighting Exhibition, 107, 297, 333, 446, 510
Lighting fittings on display, by J. G. Christopher, 445
Limit switches, Factory Inspectorate booklet on, 504
Linesmen: Protective cross-arm shrouds for, 81; Training school for, 774

New Books—
Atlas Technical Pocket Book of Fluorescent Lighting, 335
British Export Performance, by S. J. Wells, 525
Careers for Young People, 612
Digital Computer, The, by K. C. Parton, 25
Disclosure in Company Accounts, by Harold Rose, 460
Electric Cables, by C. C. Barnes, 287
Electrical Installation Technology and Practice, by J. O. Paddock and R. A. W. Galvin, 286
Electrical Interference, by R. F. Ficchi, 525
Electrical Wiring and Contracting—Vols. I–VII, 286
Electricity Supply Handbook, 458
Electromagnetic Theory for Engineering Applications, by W. L. Weeks, 287
Elphyma Tables, by E. Ingelstam and S. Sjoberg, 286
Introduction to Semiconductor Physics, by R. B. Adler, A. C. Smith and R. L. Longini, 681
Laplace Transforms in Engineering, by György Fodor, 681
Lighting in Hotels, 26
Modern Power Station Practice—Vol. V, 25
Practical Oscilloscope Handbook, by R. F. Turner, 954
Principles of Electricity, by A. Morley and E. Hughes, 682
Rewinding Small Motors, by Karl Wilkinson, 954
Social Implications of the Peaceful Uses of Nuclear Energy, edited by Otto Klineberg, 26
The Changing Pattern of Distribution, by N. A. H. Stacey and Aubrey Wilson, 526
The National Plan, by John Brunner, 877
Thermocouples: Their Instrumentation, Selection and Use, by B. F. Billing, 26
Wireless and Electrical Trader Year Book, 459
Work Study, by Andrew Rae, 526

New Electrical Equipment—
Accelerometer, Piezoelectric, 833
Adaptor, 3-light switched, 795
Air conditioners, 59, 170
Alarm annunciators, Miniature, 328
Alarm, Automatic distress signal, 213
Alarm system, 486
Amplifiers: Laboratory, 214; Frequency selective, 288; Recorder d.c., 450; Telephone, 716
Annunciators, Miniature alarm, 328
Battery charger/power pack, 952
Battery, Lantern type, 872
Bearings, Nylon, 411
Blankets, Electric, 328, 677
Blowers, Small, 567
Brake motors, Range of, 326
Brakes, Magnetic, 290
Brazing and soldering machines, 249
Breathers, Silica gel, 288
Bridge, Capacitance measurement, 951
Broken wire detector, 676
Cable cleat mounting, 362
Cable clips, Adhesive, 133, 487
Cable glands, 643
Cable insulation defect detector, 756
Cable reel, 833
Cable testers: 11 kV portable, 754; Telephone, 755
Cable ties and clamps, 326
Cable trunking, 567
Cable wiping gland and armour clamp, 365
Cables: Single-core aluminium, 449; Adhesive type sound system, 952
Can crusher, 524
Can opener, 718
Capacitance measurement bridge, Continuous, 951
Capacitors: Aluminium electrolytic, 522; Low series resistance type, 643; Polystyrene plug-in, 644; Ceramic, 833
Carpet beater, 569
Ceiling roses: All-insulated, 100; Easy wiring type, 452
Ceilings, Illuminated, 908
Central heating controller, 488
Chart recorders: Scale expander for, 56; Temperature, 645; Miniature, 754; Operating time, 755
Check weighers, Automatic, 715, 794
Circuit board, 168
Circuit-breakers: Earth-leakage, 214; Miniature, 249; Moulded case, 605; " Micro," 794
Clocks: 24-hour, 169; Range of mains and battery, 452
Coating for laminations, 871
Coating plant, High vacuum, 567
Coffee maker, Automatic, 170
Coils, Encapsulated, 604
Communication system for blocks of flats, 58
Component board, Plug-in, 288
Computers: Low-cost type for plant control, 250; Educational, 952
Connections, Underwater, 754
Connectors: Packaged modular, 98; Marine type, 214; Unit with nylon insulator, 251; Moulded edge, 717; Underwater, 754; Welding cable, 833
Contact cleaner, 993
Contact inspection tools, 755
Contact lubricant, 288
Contactors, 676, 716, 834, 907
Control instrumentation, 869

Control panel components, 792
Control system, Solid state, 24
Controller, Central heating automatic, 488
Convectors, 24, 215, 569
Conveyor, High efficiency vibrating, 326
Cookers, Domestic, 58, 100, 291, 364, 606
Cooling machine, Large, 99
Counter-frequency meter, 289
Counter/timers, 676
Counters: Electromagnetic, 23; Key reset, 290; Photo-electric, 521; Medium-duty, 522; Impulse, 568, 834; Batch, 604, 676, 715, 871, 906; Accessory units for, 676
Crimping machine, 485
Cut-out, House service, 97
Demagnetisers, Tape and small components, 214
Desk lamps: Miniature, 134; 12 V model, 909
Diesel engines, Range of, 643
Dishwashers, Domestic, 606
Display fitting, 718
Dissolved oxygen meters, 363
Distress signal alarms: Marine automatic, 213; Personal type portable, 756
Distribution panel, 869
Dividing box, Universal indoor, 870
Door chimes kit, 251
Drills: Plane attachment for, 134; Triple-action masonry, 361; Two-speed, 487
Dry reed insert, 568
Earth-leakage circuit-breakers, 214
Elapsed time indicators, 361, 449, 755
Electrochemical integrator, 99
Emergency lighting equipment, 169, 411, 795
Encapsulation plant, 22
Epoxy resin, Liquid, 835
Erasers, Bulk tape, 214
Exit sign, Automatic, 134
Fan heaters, 58, 568, 995
Fans: Miniature axial-flow, 58; Desk type, 836
Feed and flow control, Automatic, 717
Fibre optic sensors, 522
Filter, Electrostatic, 993
Fire alarm, 522
Flash tube, Laser system, 643
Flex suspension fitting, Multi-way, 134
Floodlight fitting, 523
Floodlighting unit, Mobile, 327
Floor monitors, 793
Floor warming slab, 569
Flowmeter for road vehicles, 717
Fluorescent fittings: 65 W ranges, 21, 718; Weatherproof, 24, 606, 646; Prismatic, 134, 250, 488; Domestic range, 291; Table lamps, 524; Division II Areas, 569; Canopy type, 606; Hospital type, 646; Street-lighting lanterns, 677; Prismatic controller for, 678; New range of, 718; Bulkhead, 757; Air handling, 836; Miniature, 836
Fluorescent tubes, 169, 606
Food mixer, Domestic, 952
Food trolley, Heated, 413
Fork lift truck, Glass lifting, 21
Fountain, Indoor, 413
Freezers, Domestic, 606
Frequency and time interval meter, Digital, 289
Frequency control, Calibrated, 717
Frequency detector, 792
Frequency standard, 835
Furnaces: Laboratory vacuum, 133; General purpose vacuum, 906
Fuse link carrier, 756
Fuses: Insulated service, 754; Street lighting, 950
Gas dewpoint indicator, 213
Gas dust-content meter, 132
Gas hydrocarbon content, Instrument for measuring, 325
Gaussmeter, Portable, 792
Geared motor unit, Synchronous, 835
Generating sets: Diesel-driven, 487; Portable petrol driven, 834
Generators: Range of, 717; Permanent magnet, 755
Glands, Terminating, 643
Glass-ceramics, 644
Gold plating solutions, 871
Hair clipper, 908
Hair dryers, 718, 795
Handlamps, Emergency lighting, 169
Heart monitor, 290
Heat/light units, Combined, 363, 413
Heater, Sauna bath, 413
Heaters, Space: Infra-red, 24, 952; Convector, 24, 569; Thermal storage, 24, 291, 328; Fan, 58, 568, 995; Convector/radiant, 215; Forced air convector, 328; Industrial, 328; Ducted air storage type, 328; Fire with built-in radio, 413; Warm air, 834; Coal-effect, 872; Bathside panel, 909
Heating control equipment, 411, 646, 678
Heating panel, Bathside, 909
Heating protection device, 676
Hedge cutter, 908
High voltage supply units, 289
Hopper feed unit, Vibratory, 605
Humidifier, 907
Hygrometer, Multi-range, 994
Ice detector, 755
Ignitron, Resistance welding control, 907
Illuminated ceilings, 908
Impregnating plant, 22
Impulse breakdown indicator, 485
Impulse summator, 412
Incinerator, Sanitary, 794
Indicator lamps, Sub-miniature, 906
Indicators, "Enter" and "Engaged," 327
Induction heating generators, 326
Inductive sensing device, 249
Infra-red detection equipment, 450
Infra-red heaters: Domestic, 24; Quartz type industrial, 952
Instrumentation, Control, 869
Instruments: Pivotless, 56; Wire length measuring, 57; Gas dust-content meter, 132; D.c. multimeters, 288, 994; Gas hydrocarbon measurement, 325; Voltmeters, 362, 644, 645, 834; Stroboscopes, 362, 950; Oxygen analyser, 363; Dissolved oxygen meters, 363; Percentage ratio meter, 412; Bench mounting, 412; True r.m.s. meters, 450; Potentiometric recorder test set, 450; Millivoltmeters, 486, 755; Trolleys for, 487, 523; Ranges of indicating, 568, 754; Maximum demand, 568; Insulation and continuity testers, 570; Miniature edgewise, 605; Recording, 645, 754, 755; Portable gaussmeter, 792; Wheatstone bridge, 836; Surface measurement, 950; Microvoltmeter, 995
Insulating tapes, Synthetic rubber, 250
Insulation and continuity testers, 570
Insulation, Epoxy, 716
Insulators, Stand-off, 677
Integrator, Electrochemical, 99
Invertors, Static, 568
Ironer, Rotary, 452
Irons: Steam, 364; Travel, 678
Jointing equipment, Copper pipe, 951
Kitchen appliance, Multi-purpose, 718
Label-makers, 362, 952
Laminate trimmers, 213, 450
Laminations, Organic coating for, 871
Lampholders, Heat resisting, 58, 170
Lamps: Fluorescent, 169; Nightlight, 488; Sub-miniature indicator, 906
Lampshades: Glass fibre, 606, 953; Silk, 718
Laser, Single-frequency, 794
Laser systems, Flash tube for, 643
Latching mechanisms, 290
Lawn trimmer, Battery powered, 364
Lead making machine, Automatic, 835
Lighting control unit, Photo-electric, 793
Lighting controller, Prismatic, 678
Lighting fittings: Fluorescent, 21, 24, 134, 250, 291, 488, 569, 606, 646, 677, 718, 757, 836; Weatherproof, 24, 606, 646; Decorative shades, 100; Multi-way flex suspension, 134; Wall panel, 170; Wall bracket mounting device for, 524; Table lamps, 524, 953; Division II Areas, 569; Glass fibre shades, 606, 953; Hospital type, 646; Street lanterns, 677, 835; Silk lampshades, 718; Display fitting, 718; Coach lantern, 757; Bulkhead 757, 794; Glass, 872; Ranges of residential and contract, 909, 953; Outdoor wall lanterns, 953; Decorative range, 995
Lighting/heat units, Combined, 363, 413
Light-sensitive resistor, 167
Liquid level controllers, 97, 168
Liquid level gauges, 99, 951
Load control system, 132
Logic systems, Power supply for, 451
Lubricant, Contact, 288
Machine guard, Electronic, 290
Magnet charger, 605
Magnetic brakes, 290
Mask washing machine, 521
Materials tester, Dynamic, 604
Maximum demand indicators, 568
Measuring and test equipment, Range of, 251
Metal cutting-off machine, High-speed, 523
Metal marking kit, 794
Meter enclosures, Outdoor, 167
Meters, Multi-range d.c., 288, 994
Methylpentene polymers, 451
Micro-switch, 675
Microvoltmeter, 995
Milling machine, Tape controlled, 449
Millivoltmeters: Portable, 486; Battery operated electronic, 755
Mixers, Industrial, 522
Modular rack system, 97
Monitors: Quality control, 644; Floor, 793
Motor control gear: Block type starter, 168; D.o.l. contactor, 250, 833; Star delta starters, 675, 994; New range of, 870
Motors: Squirrel-cage, 55, 717, 718; Small a.c., 98, 995; Range of standard dimension, 168; Small d.c., 215; Machines for Division II Areas, 251, 412; Range of brake, 326; F.h.p. range, 449; Miniature permanent magnet, 716; New range of, 717; Brushless, 756; Synchronous geared, 835; Range of small synchronous, 869; "Packaged" range, 869; Permanent magnet synchronous, 906
Multimeter, D.c., 288
Obstruction light, Vehicle, 568
Operating time recorder, 755
Optic sensors, Fibre, 522
Optical pulse digitiser, 835
Oscillator, High-power audio, 677
Oscilloscopes: Two-beam, 485; Trolleys for, 487, 523; Teaching type, 603; Transistorised, 792; Portable, 870
Ovens: Collapsible industrial, 451; Batch, 756
Oxygen analyser, Portable, 363
Panel heater, Bathside, 909
Percentage ratio meter, 412
Photo-electric equipment: Detector units, 55, 450; Waterproof relay, 169; Daylight-sensitive switch, 362; Counters, 521; Cadmium selenide photocells, 677; Lighting control, 793; Cell kit, 870
Plane attachment, 134
Plastics, Methylpentene polymer, 451
Plating solutions, Gold, 871
Plugs and sockets, Industrial, 675
Potential divider, 132
Potentiometers: Multi-gang precision, 55, 645; Linearity tester for, 169
Power supply units, 56, 451, 603, 675, 993; Combined battery charger and, 952
Preservative for distribution poles, 325
Pressure switch/indicator, 21, 675
Pressure transducer, 21
Process timers, 23, 604
Protection device, Electric heating, 676
Pulse digitiser, Optical, 835
Pumps, Portable barrel, 24
Pushbuttons: Magnetic reed type, 487, 643; Range of, 604
Pyrometer, "Pocket probe," 22
Quality control monitors, 644
Rack system, Modular, 97
Radio-telephone, Portable, 994
Recorder scale expander, 56
Rectifiers: Welding, 361; Solid state h.v., 523; Plug-in silicon avalanche, 715; 10A silicon avalanche, 833; Silicon bridge, 950
Refrigerators: Domestic, 59, 100, 215, 364, 606, 677; Large Stirling cycle machine, 99; Roller base for, 452; Semi-commercial, 872
Relay contacts: Inspection tools for, 755; Cleaner for, 993
Relays: Impulse, 22; Plug-in, 56, 676, 869; Latching, 132, 486; Resonant-reed, 168; Waterproof photo-electric, 169; Long life, 214; Heavy duty, 249; Screw terminal socket for, 250; Miniature, 325, 605; "Cradle" type, 715
Remote control and indication equipment, 132

New Electrical Equipment—*continued*

Resin, Liquid epoxy, 835
Resistors: Light-sensitive, 167; Metal film, 325; Variable noise-free, 603; Magnet-flux dependent, 950
Rip saw, Heavy duty, 993
Rust preventive, 22
Sander, Belt type, 487
Sauna bath heater, 413
Saw, Heavy duty rip, 993
Seals: Ceramic, 289, 834; Shaft control, 485
Seed raiser, 524
Sensing device, Inductive, 249
Service fuse, Insulated, 754
Shavers: Rechargeable battery operated, 524, 872; Mains operated, 718, 757
Sign, Fully automatic exit, 134
Signal kit, Desk-to-door, 327
Signals, Distress: Automatic marine, 213; Portable type personal, 756
Silica gel breathers, 288
Smoke detectors, 485
Smoke probe, Photo-electric, 167
Socket, Plug-in relay, 250
Solder, Reduced thermal e.m.f., 994
Solder removers, 361, 993
Soldering and brazing machines, 249
Soldering iron, 908
Soldering iron stand, 995
Solenoid valve, 717
Solenoids, 412
Solid-state control system, 24
Speed responsive switches, Weatherproof, 249
Spin dryers, 58, 646, 795
Spray gun, 567
Spraying system, Electrostatic, 793
Starters, Motor, 168, 250
Static invertors, 568
Static regulator, Traction type, 716
Static switching equipment, 644
Statistical calculator, Automatic, 97
Steam iron, 364
Steel tubing, Plastic covered, 449
Strain measuring bridge, Portable, 133
Street lighting lanterns, 677, 835
Stroboscopes, Industrial, 362, 950
Surface measurement equipment, 950
Switch mountings: Adjustable grid, 906; Boxless fixing strap, 907
Switches: Pressure, 21, 675; Edge control rotary, 99; Multi-position, 167; Weatherproof speed responsive, 249; Vacuum gauge and, 362; Daylight-sensitive, 362; Pushbutton reed, 487, 643; Ceiling, 488; Rotary reed, 521; Micro, 675; Miniature rotary, 715; Weatherproof, 951; Miniature toggle, 953
Switchgear: Range of oil-break, 23; Heavy duty, 756
Switch-sockets with pilot lights, 364
Swivelling joint, Cable lead-off mechanism for, 570
Table lamps, 524
Tank contents gauge, 99
Tapes: Pipeline identification, 57; Synthetic rubber insulating, 250; Pressure-sensitive silicone rubber, 411; Range of insulating, 523; Oil resistant, 569; Creped fibre impregnated, 569
Teaching machines, 451
Telephone amplifier, 716
Telephone cable test set, 755
Telephone systems: Marine, 361; Portable, 605
Temperature controllers, 213, 643, 906
Temperature sensors, Miniature, 57
Tension control system, 55
Test and measuring equipment: Range of, 251; Resistance bridge/insulation, 907
Testers: Potentiometer linearity, 169; Potentiometric recorder, 450; Insulation and continuity, 570; Dynamic materials, 604
Thermocouples: Models for rotating shafts, 521; Miniature mineral insulated, 907
Thermometers: Platinum resistance, 485; Digital, 908
Thermostats: Double pole, 23; Low voltage, 327; Process heating control, 451; Agricultural type, 567; Surface mounting, 644; Light duty room type, 908; Guard for, 953
Thickness gauge, Ultrasonic, 327
Thrusters, Electro-hydraulic, 361
Thyristor drives for motors, 675
Thyristor trigger control units, 167
Thyristors: Equipment for teaching operation of, 365; High power, 792, 871
Timers: Electronic, 23, 522, 603; Adjustable cam, 57; Auto-resetting synchronous, 133; Multi-purpose, 251; Plug-in, 487, 604; Interchangeable programme range, 871
Traffic signs, Internally lit, 909
Transducers: Pressure, 21, 411, 486; Wattmetric, 98; Ultrasonic, 98
Transformers: Miniature current, 56; Instrument, 870
Trolleys, Instrument, 487, 523
Truck, Battery powered, 603
Trunking: Cable, 567; Accessories for busbar, 793; Continuous bench mounting, 909
Tubing, Plastic covered steel, 449
Tumbler dryer, 606
Ultrasonic equipment: Laboratory cleaner, 289; Thickness gauge, 327
Vacuum cleaners, 291, 364, 569, 757
Vacuum coating plant, 567
Vacuum encapsulation plant, 22
Vacuum gauge and switch, 362
Valve actuators, 486, 643
Valve, Solenoid operated, 717
Variable speed drives, 604, 675
Vehicle obstruction light, 568
Vibrating conveyor, High efficiency, 326
Voltage deviation control, 951
Voltage regulators: Solid state automatic, 133; Traction type static, 716
Voltmeters: Phase-angle, 362; Digital, 644, 645, 834; Differential, 644; Cell-testing, 645; Micro, 995
Wall panels, Illuminated, 170
Washing machines, 215, 363, 606, 646
Waste disposal units, 134, 488, 606
Water demineraliser, 412
Water heaters: Pushbutton controlled, 328; Instantaneous, 678
Weighers, Automatic check, 715, 794
Welding equipment: Transportable transformer, 169; Portable CO_2 unit, 251; Rectifier, 361; Variable air-gap set, 363; "Water welder," 449; High speed stud, 645; Fine wire, 792; Cable connectors, 833; Small workshop set, 907; Ignitron for resistance welding control, 907
Wheatstone bridge, Electronic, 836
Winch, Automatic mooring, 676
Winding machine, 521
Wire cutter and stripper, Automatic, 951
Wire leads, Machine for making, 835
Wire length measurement, Instrument for, 57
Wire strippers: Heavy duty portable, 327; —— and cutter, 871
Wires, High temperature, 214, 290
Wiring accessories, 643
Wiring system, Sound distribution adhesive, 952
Wood poles, Preservative for, 325
Zener diodes, 993

New processes bring new safety problems, by G. L. Leighton, 406
New Year Honours List, 38, 44
New Zealand: Cook Strait cable, 5, 625, 734, 735, 852; Plant for, 32; Nuclear power station site, 177; Geothermal research plans, 457; Locomotives for, 495; Marsden Point power station project, 915
Newcombe, F. D., & Co., New Exeter branch of, 533
Newman Industries: Overseas orders for, 532; American maker's range to be made by, 969
Newport bridge lighting installation, 175
Newspaper production, Computer used in, 507
Nigeria: Plant for, 31, 32, 614; Gas turbo-alternator set in, 386; Locomotives for, 661, 799
NIMROD proton synchrotron, by P. Bowles, 96; Damage to alternator of, 345, 542
Noise survey, Factory operations, 509
North Eastern Electricity Board: Newcastle heating centre, 67; Refrigerated grain storage demonstration, 70; Protective cross-arm shrouds developed by, 81; Tariff increases, 175; Filey Service Centre, 458
North of Scotland Hydro-Electric Board: Costs of proposed schemes, 10; Cruachan pumped storage scheme, 42, 849, 864; Supply for Orkney, 418; Fada Fionn project, 492; New diesel plant commissioned, 532; Mull reinforcement plans, 685; Tariff increases, 762, 796; Annual report, 925
North Western Electricity Board: Own brand of lamps, 11; Computer plans, 139, 176; Storage heater offer, 172; Housing scheme charge, 216; Maximum resale price, 532; Substation control system for, 659; Use of solid aluminium conductors by, 664; Monthly payment scheme, 705
Northern Ireland: Traction equipment for, 109; White Paper on electricity supply programme, 154; Nuclear power station proposal, 154; Possibility of electricity co-operation with Eire, 431
Northfleet power station, Jetty lighting at, 402
Norway: Hydro-electric loan for, 40; Transmission line condutors for, 723
Nuclear energy, Study of long-term role of, 67
Nuclear equipment export promotion, 530
Nuclear fuels: Reprocessing contracts for, 10; Joint U.K.-Italian company formed, 649; British —— for AGR, 971
Nuclear inspection, International, 2
Nuclear Installations (Amendment) Bill, 527, 760
Nuclear power stations: Oldbury, 39, 235; Trawsfynydd, 48, 272, 307; French EDF4, 106, 259; Package deals outdated for? 116; Wylfa, 120, 735, 738; Ulster proposal, 154; New Zealand project, 177; Tokai Mura (Japan), 202; American companies' price lists for, 220; Dungeness "B," 257, 469, 624, 796, 810, 811, 851; Hinkley Point, 307, 349, 623, 781; Commissioning of world's first two 500 MW, 307; Redundancy in high integrity reactor protection systems, by I. Wilson, 429, 440; Novovoronezh (Russia), 457; Hunterston, 469, 781; Gas blower failures, 623; CEGB's lead in, 660; Underground sites urged, 722; Bradwell, 781; Berkeley, 781; British energy production figures, 781; Siting of, 913, 991; Pakistan contract for, 916; Canadian project, 960; Dungeness "A," 974; Sizewell, 974; Possible future Scottish, 1002
Nuclear reactors: Delay in prototype fast, 10; Prototype SGHW, 83, 971; AGR's 85 per cent availability, 308; Parliamentary questions on research, 421; Redundancy in high integrity protection systems, by I. Wilson, 429, 440; Dounreay, 453; Choice for Dungeness "B," 469, 810, 811, 851; Proposal for prototype Dounreay type fast, 510; G.E.C. research, 650; AEA future plans, 968; British fuel for AGR, 971; Exploiting the AGR, 997; Plans for fast-breeder type, 997
Nuclear safety philosophy, 657

Postgraduate study awards, 916
Post Office: Equipment to be transistorised, 118; Equipment for, 254, 686, 842; Future of bulk supply agreements, 297, 548; Llanllawddog microwave tower, 546; Possible expansion of own factories, 796
Potentiometer, Precision metallic-film, 129
Power pack, Radio-isotope, 736
Power station auxiliaries, Proposal for thyristor control of, 81
Power station boiler furnaces, Aerodynamics in, by D. Anson, 820
Power station coal preparation plant, Improved, 155
Power station plant, Heavy-lift ship for, 29, 471
Power station project, Local effects of work on, 627
Power station sites: River Trent, 40; Home Counties and East Anglia, 190; Grid substations on old, 786; Fawley, 814; Cooling water problems and, 850; Nuclear, 913, 991
Power stations (*see also* Nuclear power stations): Carolina Port, 3; Thorpe Marsh, 6; Cockenzie, 29, 188, 471, 910; Lots Road, 29; Tilbury "B," 41, 43; Battersea, 83; Cairo South, 121; West Burton, 137, 251, 507, 585, 989; Earley, 152; Ferrybridge "C," 152, 854; Pretoria, 178; Longannet, 188, 471, 477, 652, 802; Hazelwood (Victoria), 195, 801; Automatic electronic control for CEGB —— and transmission system, by E. B. Johnson, M. F. Binney and F. H. Last, 199; Athlone (South Africa), 203; Cottam, 238, 296; American projects, 271; Ratcliffe-on-Soar, 295; Kingsnorth, 309, 458, 533, 842; Methil, 311; Thorpe, 349; Aberthaw, 350; Australian project, 370; Didcot, 370, 505, 1003; Blyth "B," 370; Kincardine, 388; Northfleet, 402; Thermal efficiency figures, 436; Rye House, 472; Drax, 505, 900, *facing* p. 940; Fawley, 508, 649, 814; Eggborough, 532, 627, 891; Electronic or pneumatic control in, by Ll. Young, 554; Control panels for large, by S. E. Hopkins, 555; East German, 651; South African projects, 763; Abu Dhabi, 841; Ironbridge "B," 858; Water and gas analysers for, 910; Marsden Point, 915; Transport of fossil fuels to CEGB, by J. Laing, 933; Aldershot combined district heating and, 1001
Power styling, 598
Power system behaviour, 382
Power system stability, A.c. saturated reactors for, by E. Friedlander and D. J. Young, 88
Power system structures, Booklet on styling of, 398
Precipitators: Improving the efficiency of electrostatic, 323; Surface heating of hoppers, 910
Premium Bonds, Computer to keep records of, 687
Pressure vessels, Special, 701
Prestige, Domestic electrical appliances by, 384
Prices and incomes, National reviewing body for, 150
Prince Philip Medal award, 384
Printing works, Colour matching lighting installation in a, 777
Pritchett & Gold and E.P.S. Co., Change of name of, 32
Process computers, A phased approach to the use of, by J. M. Westhead, 395
Process instrumentation, New range of, 586
Product design service, Company formed for, 371
Production costs, Liaison group on, 971
Production Engineering Research Association conference, 520, 893
Productivity: How electricity is helping to improve, by N. F. Marsh, 392; Improving quality and —— with closed-circuit television, by L. J. van Rooyen, 399
Professional competence, 229
Professional institutions: Discussion procedure of, 658; Standardised membership recommended, 851; Proposal to combine services, 930
Propellers, Annealing oven for ships', 259
Protective multiple earthing, Double insulated equipment and, 474
Protective systems, Future, 230
Proton synchrotron, Nimrod, by P. Bowles, 96; Damage to, 345, 542
Public ownership, 421
Pump runner hub, Large, 546
Pump with leakproof coupling, Miniature, 122
Pumped storage schemes: Scottish, 42, 849; Spanish, 177, 203, 801, 1000
Pylon accidents, 852, 874
Pyrometer, Optical brightness type, 366
Pyrotenax, Factory extensions for, 221

QATAR, Generating set for, 532
Queen's Medal for applied sciences, 384
Quenching process for steel, 974

RADIATION, Acquisition by, 232
Radiation detection badge, New, 458
Radio and Electronic Component Show, 69, 817, 850
Radio and Television Exhibition, Cancellation of, 812
Radioheliograph station, 7
Radio-isotope power pack, 736
Radio-telephone sets: Police, 651; Proposed ban on mobile, 760
Railway electrification: Midland line progress, 3, 431; Rugby control room, 153; Rugby signal box, 234; Yugoslavian, 336; Manchester-Sheffield line extension, 470; Indian, 701; Overhead current collection problems, 736; Glasgow-Wemyss Bay line, 761; Mimic diagram at control centre, 776; Glasgow main line, 923
Railway signalling: Modern ——, by G. S. Nock, 207; Rugby box, 234; Northern Line, 544; Equipment contracts, 652; Recent experience with changeovers, 658
Railways: Lots Road power station modernisation, 29; Southern Region cable contract, 31; Russian driverless train experiment, 39; Experimental French rail-car, 54; Equipment for Ulster, 109; Experimental locomotive, 117, 153; Rugby signal box, 234; Control panels for Tinsley marshalling yard, 273; Braking arrangements for Victoria tube line stock, 276; Second stage of Dr Beeching's plan, 305, 335; Copenhagen underground project, 371; New battery handlamp for, 506; Victoria Line communication system, 544;

Northern Line signalling, 544; Possible 4,000 h.p. locomotive, 548; Checking drivers' alertness, 584, 608; Plans for electrical laboratory, 587; Victoria Line equipment order, 652; Signalling equipment contracts, 652; Warning system equipment, 687; "Merry-go-round" coal trains, 705, 927; Equipment for Danish, 842; Heaviest load carried by British, 891; Experience with traction supplies, by A. W. Knight, *in supplement to issue dated 22nd January*
Ram-borer, Large, 700
Rapid-reclosing, Single-pole, by T. Heinemann, 668
Ratcliffe-on-Soar power station, Equipment for, 295
Rating assessments, 11
Raw materials, Survey on companies' stocks of, 41
Reactor, Large single-phase, 434
Reactor protection systems, Redundancy in high integrity, by I. Wilson, 429, 440
Recorder, Portable kWh, 856
Rectification, High power switching and, by J. H. Holliday and A. J. Booth, 896, 999
Rectifiers: Ships' shore supply, 120; Large silicon, 272; Equipment for I.C.I. chemical plant, 334
Rectifiers and invertors, *supplement to issue dated 22nd January containing the following articles:* Choosing, applying and specifying rectifier equipment, by F. T. Bennell; Supplying electrolytic loads, by S. A. Stevens; Output control of d.c. installations, by C. B. Henman; Experience with traction supplies, by A. W. Knight; Developments in large convertor equipments, by K. D. Phillips
Redundancy Payments Bill, 725
Reed relays, Mass-produced precision, 512
Refrigerators: Manufacturers' delivery figures for, 107, 259, 575, 613, 801; Pye enters market, 220; Adoption of "Star-marking" for, 258; Hoover to enter market, 350; Complaint of dumping, 493
Registrar of Restrictive Trading Agreements, First list by, 298
Regulator, High power semiconductor, 453
Reheating, Advantages of, 78
Relays: Mass-produced precision reed type, 512; Inverse time, by P. L. Moreton and B. D. Nellist, 739; Phase-detection, by B. J. Cory and G. B. Rai, 739
Reliance Telephone Co., New headquarters of, 137
Reluctance motors, Papers on, by P. J. Lawrenson and L. A. Agu, 84
Remington Electric Shavers, Quality control at works of, 800

Restrictive Practices Court, Switchgear agreement hearing by, 8
Resuscitator, Portable oxygen, 697
Retailing, New trends in, by D. A. Reader, 271
Reyrolle, A., & Co., Showvan of, 652
Rhodesia, Load control equipment for, 614
Richardsons Westgarth & Co., Acquisition by, 70
"Rickshaws," Proposal for electric, 856
Ripple control tests, Area Board's, 274
RIPPLE radio-isotope power pack, 736
Road crossing, New form of illuminated, 347
Road heating installations: Motorway, 474; Harrow Road fly-over contract, 960
Rosenthal-Porzellan, Devonshire factory for, 687
Ross, Donald, & Partners, Change of name of, 109
Rotating machines, Proposals for tropical tests on, 888
Rotron-Vactric Europe, Formation of, 219
Routine factory measurement of internal discharge, by D. J. Allan and J. Heighes, 902
Rubber industry, Computer application study for, 778
Russia: Driverless train experiment, 39; Developments in electric power trans-

mission in, by Prof. V. A. Venikov, 158; Engineering in, 322, 680; Novovoronezh nuclear power station, 457; 400 kV interconnection with Hungary, 651; Criticism of British exporters, 685; 1966 British Industrial Exhibition in, 761; Electricity supply in, 901; British equipment for, 917
Ruston & Hornsby, Talks with English Electric by, 122, 544
Rye House power station, Gas turbine installation at, 472

SAAB-HONEYWELL co-operation, 259
Safety problems, New processes bring new, by G. L. Leighton, 406
Salaries, Electricity supply industry, 47, 117, 926, 976
Sale of Goods Act, 10
Salmon hatchery, CEGB's, 47
Salvage vessel, New, 453
Sanders, W. H. (Electronics), Bid for, 347
Sanders, Wm., & Co., Bid for Chilton by, 383
Sangamo Weston, Felixstowe factory of, 775
Satellite communications: Global, 254, 796; Studies on, 373; Early Bird, 432
Saturated reactors for power system stability, A.c., by E. Friedlander and D. J. Young, 88
Scholarships: English Electric, 334; Baird Travelling, 371; Isaac Sclar research, 1003
Science places, Vacant, 373
Science Research Council: Membership, 254; Postgraduate study awards, 916
Science and Technology Bill, 172
Scientific Instrument Manufacturers' Association: Traffic group formed by, 231; Moscow exhibition, 298
Scotland: Rural electrification in, 10; Possibility of more nuclear power stations in, 1002
SEACOM submarine telephone cable, 236, 548
Semiconductor, Current measurement test on a, 7
Semiconductor limits, 584
Semiconductor products: Praise for quality of British, 624; "Do-it-yourself" range of, 915
Service Centre, Filey, 458
Shaver, Quality control in production of, 800
Shelton Iron & Steel, Control installation at plant of, 473
Ship model towing carriage, 435
Ships: Power station plant carrier, 29, 471; Distribution at 3·3 kV in, 193; Annealing oven for propellers, 259; Control engineering for, by Rear Admiral J. Y. Thompson and A. C. Jones, 324; Data loggers for, 432; Constant-voltage generating system, 453; Generating plant orders, 652
Shock tests, Standardising, 343
Showroom: Mobile, 652; Commercial vehicle, 698
Shunt reactor, Successful testing of 735 kV, 628
Siemens Group, British company formed by, 8, 221
Siemens-Schuckert (Great Britain), Change of name of, 221
Sierra Leone, Hydro-electric project in, 258
Silicon diodes, 202
Simon, Henry (Holdings), Reorganisation of, 70
Simonburn, Bulk carrier, 432
Simplex Electric Co.: Off-peak central heating units by, 721; Development of flameproof fluorescent fittings by, 945
Single-pole rapid-reclosing, by T. Heinemann, 668
Site erection, Plastic balloon technique to assist, 507, 585
Sizewell nuclear power station, Fuel loading at, 974
Small companies, Formation of association for, 723
Small Electric Motors, Overseas orders of, 763
Society of Independent Manufacturers, Formation of, 723
Soldering iron, Temperature controlled, 545
Solid insulation, Determining the intrinsic strength of, by R. Cooper, 278
Son et Lumière programmes: Southwark Cathedral, 372, 687; Royal Pavilion, Brighton, 958
South Africa: Orange River scheme tenders, 139; Turbo-alternator sets for, 178, 495, 509, 723; Athlone power station, 203; Packaged switchgear for, 386; Power station boilers orders, 576, 688; New power station projects, 763; Locomotive equipment made in, 914; Cape Town 400 kV transmission lines, 915
South Eastern Electricity Board: Catering exhibition stand, 260; Maximum resale price fixed by, 513; Reduced standing charge in multiple dwellings, 686
South of Scotland Electricity Board: Contract placed, 29; Off-peak achievement, 233; Hunterston nuclear power station cost dispute, 469; Tariff increases, 762, 796; Annual report, 925, 1002; Possible future nuclear power station, 1002
South Wales Electricity Board: Plans explained to county planners, 61; Reorganisation, 218; New headquarters for, 295; Briton Ferry substation, 336; Area without mains supply, 527; Special catering tariff, 576
South Western Electricity Board: Long-term Bristol distribution plan, 148, 162; Bristol supply centre, 284; "Pocket" substation orders, 384; Gas/electric cooker to be sold by, 433; Appliance turnover increased, 650; Tests on battery powered car, 739; Exhibition by, 772, 788; Business increase, 916, 949
Southern Electricity Board: Low-loader for, 493; Maximum resale price, 532
Southwark Cathedral, *Son et Lumière* programme at, 372, 687
Space research, Plans for, 388
Spain: Valdecanas hydro-electric project, 177, 203, 1000; Alcantara hydro-electric project, 801
Spark erosion machine, 270
Spembly Technical Products, New factory for, 32
Spherical coils, Special, 891
Stage lighting: Developments of particular interest in export, by F. Bentham, 204; Glyndebourne installation, 928
Standard Telephones & Cables: Data processing system installation of, 42; Managing director's annual review, 177; Possibility of second Ulster factory, 258; Microwave link order, 471; Manufacture at Paignton factory of, 473; Meters to be marketed by, 493; New Basildon factory, 800, 992
Standardisation, Towards NEDC target by, by W. McMillan, 789
Standards: Efficiency through, 467; A more international approach to, by J. O. Knowles, 482
Stator bonding material, New, 297
Steam drum, Transporting a large, 891
Steel Company of Wales, Use of computer by, 116
Steel nationalisation, Commons debate on, 760
Steel .Peech & Tozer, Large melting shop of, 189
Steel quenching, Electrical process for, 974
Steel refining by plasma jets, 308
Steelworks: Use of computer at, 116; Large melting shop, 189; Electronic control console at, 235, 386; Lighting installation, 403; Control and instrumentation installation, 473; Large motors for, 815; Mild-steel strip annealing line, 855
Stock rearing, Off-peak power in, 139
Stratosphere chamber, Circuit-breaker tests in, 348
Street lighting installations: High-intensity, 611; Port Glasgow, 626; Mercury-iodide, 970
Substation equipment for distribution networks, by W. Plumb, *in supplement to issue dated 4th June*
Substation techniques, New grid, by L. B. Wood and J. P. Thompson, 316
Substations: E.h.v. switchgear for urban, by W. Gray and D. F. Amer, 197; "Pocket" designs, 295, 384, 544; Bordesley grid, 306, 309, 316, 369; Briton Ferry, 336; Orders for "pocket," 384; Repairing structure of —— with epoxy materials, 414; M4 motorway, 531; Large crane for, 625; Underground high-voltage, 630; Supervisory control system for, 659; London grid —— on old power station sites, 786; West Burton 400 kV, 989
Superconductor applications, 824
Supergrid switching station, Air vessels for, 69
Supply fluctuations, Increasing seriousness of, 269
Sweden: Helicopter erection of pylons in, 800; Loan for ASEA, 959
Swedish engineering group, British subsidiary of, 297
Swimming pools: Heat pump installation, 122; Electronic control installation, 612
Switches, Custom-built, 384
Switchgear (Home) Agreement: Court hearing, 8, 345; End of, 345
Switchgear: Testing, 186, 454; E.h.v. —— for urban substations, by W. Gray and D. F. Amer, 197; Large oil switch, 386; Swiss lead in, 622; Belmos Peebles, 661; New testing station, 813; Developments in France, 859; SF_6 type for transmission and industrial applications, 862; New Statter range of, 930
Switching and rectification, High power, by J. H. Holliday and A. J. Booth, 896, 999
Switching station, Thorpe Marsh, 6
Switzerland: 1964 electrical industry results, 176; Developments in, 628; Firms study merger possibilities, 649
Swivelling joint, Cable lead-off mechanism for, 570
Synchronous compensator, Large, 272

TANGANYIKA, Power projects for, 614
Tangential fans, Demonstration of applications of, 651
Tape changer factory, New, 970
Tapes: New insulating, 187; Pipe joint protection, 1003
Tariffs, Electricity: Eastern Board, 80; Parliamentary questions on, 172; North Eastern Board, 175, 189; A seasonal —— for domestic supplies, by D. J. Bolton, 186, 191, 230; Bulk supply, 189; South Eastern Board, 189, 686; Southern Board, 189; Possible experiments in seasonal, 232; No Government directions on, 421; Special catering, 576; Scottish Boards' increases, 762, 796; Opposition to London Board's increases, 887, 974
Teaching machines: —— and programmed instruction, by C. K. Brunström, 62; New advanced design, 550
Technical decisions for 1965, 2
Technological education, Government's plans for, 373
Technological manpower survey, 257, 722
Technological priorities, Inadequate assessment of, 506
Technologists, New awards for, 816
Telecommunication project, Floating island, 624
Telecommunication systems, Consortium for, 812
Telegraph Condenser Co.: New test house of, 471; Takeover bid for, 548
Telephones: Pulse code modulation system, 4, 152; Datel services, 10; Equipment for Thailand, 43; First SEACOM section completed, 118; River Tagus cable, 196; SEACOM second stage, 236, 548; Ceylon exchange, 295; Future of bulk supply agreements, 297, 548; London Airport's private exchange, 311; Aluminium-sheathed cable, 387; Goonhilly-Bristol microwave link, 471; Waveguide link demonstration, 504; Leamington Spa electronic exchange, 530; New P. & O. exchange contract, 532; Eastern Bermuda cable, 663; Pentex exchange system order, 686; Baltic cable contract, 721; Exchange equipment for Iraq, 802; Virgin Islands-Bermuda cable, 802; Electronic accounting equipment installation, 854; Aden equipment order, 878; Peterborough electronic exchange, 892; New Post Office plans, 926; London trunk switching exchange, 1003
Television: Studio lamp hoists, 108; Possible new channel, 172; Camera, 203; American colour system favoured, 254; Improving quality and productivity with closed-circuit, by L. J. van Rooyen, 399; Winter Hill cylindrical mast, 574; Laser beam used to relay programmes, 607; Colour dilemma, 760; British transmitters for U.S.A., 842

Tent for site assembly, Plastic, 507, 585
Test house, New, 471
Test plant, Diesel engine, 64
Thailand: Telephone equipment for, 43; Furnace for, 177
Thermionic convertor, Prototype, 507
Thermionic power generation conference plans, 68
Thermistor, Motor protection type, 775
Thermocouples, Plasma welding for miniature, 311
Thermomagnetic energy convertors, by H. J. Goldsmid, 514
Thomas, Richard, & Baldwins, Strip annealling line of, 855
Thompson, John, Merger of two subsidiaries of, 109
Thorn Electrical Industries, Bid for Glover & Main by, 493
Thorn House, Panoramic view taken from, 333
Thorpe Marsh power station, Switching station at, 6
Thorpe power station, Gas turbo-generator sets for, 349
"Thrusters and Sleepers" report, 430
Thyristor operation, Equipment for teaching, 365
Thyristors for control of power station auxiliaries, Proposed use of, 81
Tilbury "B" power station: Generator sets for, 41; Control system equipment for, 43
Tinsley marshalling yard, Control panels for, 273
Tobacco factory lighting installation, 69
Tools, Double- and all-insulated portable, 687
Town Planning Institute, Annual conference of, 743
Traction supplies, Experience with, by A. W. Knight, *in supplement to issue dated 22nd January*
Traffic control: Munich automatic project, 189; Electricity in, 268; Glasgow experiment, 877
Train driver's vigilance, Device for testing, 584, 608
Training centre for electrical trade, 959
Trains, "Merry-go-round" coal: Loading equipment dispute, 705; Electronic speed control for, 927
Transatlantic communication installation, 799
Transformer industry: Mr S. Z. de Ferranti's views on, 926; Higher efficiency required in, 970
Transformer switching surge strength, by E. T. Norris, 239
Transformers: Aluminium tanks for large, 7; Prototype 750 kV, 82; Design of small current, by J. C. Clark, 126; Temporary bridge for transporting, 188, 273; Large current, 202; Novel construction to ease transport problems, 238, 925; Cottam power station, 238; West Burton power station, 257; Grid substation —— with double secondary windings, 306, 309, 316; Large substation auto-wound, 310; Parallel operation of, by Dr J. M. Cowan, K. L. Edmondson and L. L. Preston, 359; Reduced need for tertiary windings, 436; Longannet generator, 471; Cockenzie power station, 471; CEGB orders for, 471; Butyl/Hypalon cables for connections, 474; Electricity Board order for, 495; Insulation experiment, 625; Improvements at B.E.T. works, 672; An improved method of incipient fault detection, by P. L. Arlett, 712; Hawker Siddeley facilities expanded, 752; Research on superconducting, 813, 930; Development of supercooled, 853; 735 kV rating for Canada, 878; Interstep, 916; Site-assembled, 925, 972; Research on supercooled, 930; YEB order for, 960
Transistors: Patent ruling on, 81, 492; U.S. patent, 1000
Transmission lines: Ice brings down, 5; Auto-switching for Canadian, 29; Flash-overs between ice-loaded conductors of, by V. T. Morgan and D. A. Swift, 85; Tottenham-Brimsdown, 164; Parliamentary questions on, 172; Bolney-Lovedean, 172; Insulator flash-over indicator for, 240; Equipment for Kariba-Kitwe, 259, 576; West Burton-Waltham Cross, 346; 400 kV line in pipes, 436; Berkshire 400 kV line inquiry, 611; Oxford 400 kV underground section, 623; Russia-Hungary, 651; Single-pole rapid-reclosing on, by T. Heinemann, 668; "Hot line" maintenance, 696, 698; Aluminium conductors for Norway, 723; Leicestershire inquiry, 763; Erection by helicopter in Sweden, 800; High voltage, 824; Pylons collapse, 852, 874; Lea Valley Viaduct crossing, 855; Balloon caught in, 858; Gloucester-Ystradgynlais inquiry, 913; Cape Town 400 kV, 915; Sundon-West Burton 400 kV, 925, 990; British network, 974; Cowley-Fleet inquiry, 991
Transmission of electricity: New thoughts on, 148; In Britain, 974
Transmission system control developments, 885
Transmission towers, Collapse of, 852, 874
Transport of fossil fuels to CEGB power stations, by J. Laing, 933
Trawsfynydd nuclear power station: Some aspects of the electrical design of, by J. S. Davey and W. Johnson, 48; Large blower motors at, 272; Commissioning of, 307
Trist, Ronald, & Co., Change of name of, 32
Tube Investments-American G.E. agreement, 969
Tube mill, Italian, 674
Turbines: Production of prototype blades, 391, 392; Shaft for large water, 626; Boring holes in condenser plate for, 663; Blade straightening machine, 776; Runner head cover for large water, 814
Turbo-generator sets: 500 MW units nearing completion, 5; Danish district heating scheme, 40; Tilbury "B," 41; Advantages of steam reheating, 78; Milling operation on part of large, 82; West Burton, 137; Gas turbine sets for Earley power station, 152; South African orders, 178, 495, 509, 723; Controlling gas —— for power station stand-by, 253; Orders for geared sets, 258; American 900 MW units, 271; Talks on designs rationalisation, 274; 350 MW set for Australia, 310; Work on set for South Africa, 509; Large Brown-Boveri set, 589; View of slotting of large rotor for, 662; Foundation block model for, 687; Merger of G.E.C. and Parsons interests, 771, 773; U.S. 1,130 MW project, 852; CEGB standards, 924; Canadian order for, 960
Tyre-building machine, Programme switch for, 701

ULTRA-VIOLET light recorder, 815
Underground cables, Construction of overhead lines and, by K. A. Austin, *in supplement to issue dated 4th June*
Underground railways: Lots Road power station modernisation, 29; Victoria Line, 276, 544, 652, 664; Copenhagen project, 371; Northern Line signalling, 544
Undergrounding cables: Research on, 331; Local authorities, 667
Undergrounding urban distribution, by B. Foster, 947
United Kingdom Atomic Energy Authority: Uranium reprocessing contracts, 10; Gas experience for industry, 138; Reorganisation of selling operations, 268, 292; Future proposals, 968; Plans for fast-breeder reactor, 997; Space research, 997
United Kingdom electrical trade, *see* Electrical trade
United Power Co., Possible reorganisation of, 79
United States: Computer controlled power system, 4; Contract from, 31; NEMA annual convention, 69; Utility companies' public relations methods, 87; Planning for lower peak power reserves, 147; New York World's Fair, 157; Power station project, 271; Electric power situation in, 312; Electric vehicle projects, 312; Questions on nuclear progress in, 330; Large pumps for, 546; Westinghouse e.h.v. test centre, 671; Electrical engineering companies' record profits, 762; H.v.d.c. transmission system contract, 762; MHD research in, by I. R. McNab, 826; Hydro-electric development in, 841; British t.v. equipment for, 842; 1,130 MW generator set, 852; Electrical wholesaling in, 876; Undergrounding an urban distribution system in, by B. Foster, 947; H.v.d.c. research project, 959; Transistor patent, 1000
Universities: IEE discussion on, 308; Electrical services contracts for new, 419
Urban distribution, Undergrounding, by B. Foster, 947
Urwick Lecture, by Sir Ronald Edwards, 493

VACLIGHT, Damages award against, 840
Vacuum contactor, Long-life, 236
Vacuum interruptors, Range of, 840
Valor Co., Acquisition by, 875
Valves, Special quality, 588
Vancouver Island power link project, 149
Vanguard Engineering Co., Acquisition of, 875
Vauxhall Motors, Diesel engine test plant at, 64
Vehicle, Battery powered, 739
Venner, Automatic machine tools used by, 6
Ventilators, New range of, 414
Vickers Group, Organisation changes in, 178
Victoria Line tube: "Limited rheostatic braking" system for, by A. W. Manser, 276; Train-to-train communication for, 544; Equipment for, 652
Visitors, Overseas, 457
Volta Dam, Completion of, 369
Voltage regulation, Russian scheme for, 322
Vosper, Electrical division of, 576

WAGES: Electrician's, 176; Gas Board's electricians', 232; Power station foremen's, 664
Wallpaper mill, Thyristor controlled, 801
Warm air heating, Electric thermal storage, by H. E. Smith, 271
Washing machines, Automatic: Market for, 621; Design and construction of four main types, 632; Why Britain has lagged behind West Germany, by Isabelle Webber, 638
Water purifying, Ion-exchange resins for, 60
Waterwheel generator, 588
Waterworks electrical contract, Large, 802
Wayleaves, Higher payments for, 530
Welding: International research fellowships in, 69; New pulsed arc technique, 432; Deck welding machine, 472; High-current —— of aluminium plate, 679
West Burton power station: Plant for, 137, 257; Inflatable plastic tent used at, 507, 585; 400 kV indoor substation, 989
West Devon Mining & Power Co., 252
Westinghouse Electric Corporation, E.h.v. test centre of, 671
Wilec, Future plans of, 176
Window display, Atlas Lighting, 333
Windowless buildings, Report on, 513
Winston Electronics merger, 616
Wire harnesses, Automatic machine for forming, 131
Wire production techniques, Improvements in, 785
Wiring installations: Replacing worn-out, 254, 796; Plastic conduit, 283
Wiring practice, Industrial building delayed by, 269
Wiring Regulations, Interpretations of, 542
Wolf Electric Tools, Kite marked tools by, 687
Woolsington Airport, Lighting equipment for, 724
Woolwich Polytechnic extensions, 370
Wylfa nuclear power station: Tube for heat exchangers at, 120; Progress of, 735, 738

YARROW & Co., Centenary of, 802
YMCA building, Wiring installation in a, 283
Yorkshire Electricity Board: Substation clock repair dispute, 87; Transformers for, 495, 960; Maximum resale price, 532
Yugoslavian railway electrification project, 336

ZEALANDIC, Cargo vessel, 432

Published by ILIFFE ELECTRICAL PUBLICATIONS LTD., at Dorset House, Stamford Street, London S.E.1 and printed in Great Britain by THE CHAPEL RIVER PRESS LTD., Andover, Hants.
